

FACTORY FLOOR FANS

Description:

The innovative design of the Factory Floor Fan make this product well-suited to multiple applications, such as, supplying fresh air and circulation of air and can also be used for the extraction of dust, smoke or hot air.

The Factory Floor Fan is available in a range of sizes, to suit multiple applications and its 3-speed 240v motors are built to ensure high volume air circulation.

The Factory Floor Fan is both compact and portable with wheels for extra portability. The Factory Floor Fan 500mm and 600mm both possess vertical tilt adjustments, ensuring the best possible results for air circulation.

Features:

- ⊕ Multiple applications
- ⊕ 3-Speed
- ⊕ High Volume Air
- ⊕ Compact design and construction
- ⊕ Portable

Specifications:
