

INDUSTRIAL WALL EXHAUST FANS

Description:

Industrial Wall Exhaust Fans provide a simple and economic air extraction system that has been designed and robustly built to suit Australian conditions. The Industrial Wall Exhaust Fan can be fitted in the cavity of a double brick wall to bring the air outlet flush with the outside wall and allow for better airflow and circulation. Automatic louvers and protective screening are also available and sold separately. For a efficient and economic solution to airflow and circulation the Industrial Wall Exhaust Fan is right for the job.

Features:

- ⊕ Intrinsically safe models available on sizes starting from 400mm
- ⊕ Made in Australia
- ⊕ Fixed louvres available

Specifications:

Model #	Diameter	Motor	Air Flow
IW3-370-4	300mm	370W/240v	425L/s
IW3-370-4-3	300mm	370W/415v	425L/s
IW4-370-4	400mm	370W/240v	1000L/s
IW4-370-4-3	400mm	370W/415v	1000L/s
IW4-550-4	400mm	550W/240V	
IW4-550-4-3	400mm	550W/415v	
IW5-550-4	500mm	550W/240v	2550L/s
IW5-550-4-3	500mm	550W/415v	2550L/s
IW6-750-4	600mm	750W/240v	
IW6-750-4-3	600mm	750W/415v	
IW6-11-4	600mm	1100W/240v	4200L/s
IW6-15-4	600mm	1500/240V	
IW6-15-4-3	600mm	1500/415V	
IW6-11-4-3	600mm	1100W/415v	4200L/s
IW8-15-4	800mm	1500W/240v	
IW8-15-4-3	800mm	1500W/415v
