

MINI MANCOOLER

Description:

The Mini Mancoolers are best suited in factory situations and are capable of extracting dust, fumes and smoke from these environments. The Mini Mancooler fans offer a flexible and compact form of air extraction and ventilation by quickly lowering the temperature, or by directing cool air over workers in hot working areas. The Mini Mancoolers are available in both 300mm or 400mm diameter and are capable of being wall mounted.

Features:

- ⊕ Australian made and robustly built
- ⊕ Extracts dust, fumes and smoke
- ⊕ Can be fitted with ducting
- ⊕ Available as wall mounted or portable
- ⊕ Allows vertical tilt adjustment & easy portability
- ⊕ Intrinsically safe models available on sizes starting from 400mm

Specifications:

Model #	Diameter	Motor	Air Flow	Weight
MC3-370-4	300mm	370W/240v	600L/s	25kg
MC3-370-4-3	300mm	370W/415v	600L/s	25kg
MC3-550-2	300mm	550W/240v		
MC3-550-2-3	300mm	550W/415v		
MC4-370-4	400mm	370W/240v	1250L/s	30kg
MC4-370-4-3	400mm	370W/415v	1250L/s	30kg
MC4-750-2	400mm	750W/240v	2120L/s	30kg
MC4-750-2-3	400mm	750W/415v	2120L/s	35kg
